

## MODEL 980 NEMA TS2 TYPE 2 LOCAL CONTROLLER

The Model 980 NEMA Traffic Signal Local Controller is designed using state of the art electronics for reliability, long life, and superb performance in all signal control applications. The advanced architecture and NTCIP compliance provide the traffic engineer with a flexible platform for the future.

The Model 980 NEMA Local Controller meets and exceeds NEMA TS2 specifications, allowing simultaneous intersection control and including advanced functionality for complex phasing, detector processing, coordination, preemption, communications, adaptive timing, as well as full systems operation in a closed-loop, hybrid, or centralized configuration.

The advanced LCD display and menu driven software provides a user-friendly approach to programming and access, and built-in diagnostics permit rapid evaluation of operational status. The use of Flash Memory allows software upgrades without PROM replacement.
